# How & Why of Concussion Management

Danny Mistry

Fort Collins

Sees about 100 concussions per month

Speak the truth

Do it right, people heal

“At least 4w for symptoms go away” -- far from truth

No two brains are alike; therefore no two concussions are alike

1y analysis:

In-water collision

Collision with Wall

Dryland

Bottom Strike

Presentation will be on web-site

Transient or not-so-transient effect to brain

Concussion in Sport conference (last in Berlin, next in 2020 somewhere in europe)

“Basic Steps”

Remove from Swim & Play

Evaluate

Rest & Reduce -- Physical Exercises & Cognitive Tasks

Refer to Specialists

Academic Adjustments and Accommodations at School

Graduated Return-To-Sport (RTS) / Return-To-Play (RTP) Strategy

Steps 1-6 (see doc) -- each separated by at least 24h

Bridge between 3 & 4 hardest for swimming

2016 return to school / return to learn (RTL) (Karen McAvoy(?), on Conc Comm)

Steps 1-4

Get kids back to school as soon as possible -- short-term transient  
Zemek 2016 data look at critically (28d for 70% over 5-18y)  
Mental Fatigue  
Slowed Processing Speed

2017 Survey to All Registered Coaches

Most USA-S clubs do not have established relationships with athletic trainers and other healthcare providers

Dependable & Steady Communications

## Youth Injury Survey

Feb - Aug 2018 w. 308 responses (reg USA-S Coaches)

Risk Factors:

Sports Specializations

Volume of In-water Training

Specific Stroke

Common Injury Areas:

Shoulder

Knee

Low Back

4-7 practices / week

5-15 hours of training / week

10 hours is not necessary to achieve Elite Status

1-2 hours / week in another sport

\*but\* other sport is a risk factor for injury

No need to specialize at this age

Extraordinary range of motion needed to achieve Elite Status

Breaststroke: most injuries

Core weakness in free and fly -- injury risk factor

Dr. Dawn Comstock -- database on HS Reporting information

## Sports Cardiology

Sudden cardiac death

Four domains

Dr. Ankit Shah in Baltimore

Establish Network of cardiologists throughout US

World champs

Phone-based cardiac test send to Ankit

## Female Athlete Triad

White elephant in room of swimming

Myth: Peak at 18

Over-training can't change hormones

2018 FiTR Woman -- free app training w/ menstrual cycle

Triad diagram -- bones

Knowledge is power -- what is going on with our athletes?

64% have HMB

36% amenorrhea

9% polycystic ovarian syndrome

**Daily cost for a national meet \$350**

Officials paying \$1,147,250 out-of-pocket per year to work at National meets (need slide)

Dara Torres / Carol Zaleski rip-in-suit Story Beijing 2008 (John Wilson was SR)

Carol:: (delayed, international relations meeting)

Onto committee 1988, chairman 1992, 2005 FINA politics → vice-chair Roger

Chauvinism, changes since 1988

1988: olympic movement needs age-group mothers to tell them how to run a swim meet  
Russ White SR from US

Semi, Women's 50 --

Dara didn't know what she would've done if another Ref on deck

Carol questioned about delay by FINA pres -- resp: check with NBC became good human interest story -- CZ gonna do the right thing for athletes
